Double Barrel

Our best water treatment system uses multiple stages of filtration to reduce scale, hardness, chlorine, heavy metals, pesticides and many other contaminants! High flow design and high purity medias ensure the most luxurious water treatment system for your household water needs. No wasted electricity or water! Available with optional decorative stainless steel jackets.

- ◆ No wasted water. The unique design allows for the Double Barrel to be installed without a drain connection!
- ◆ No electrical connection, luxurious water treatment and "Green"! Reduce your ecological footprint.
- ◆ Point-of-entry water treatment eliminates the need for a wasteful under the counter drinking water system!
- ◆ No chemical discharge, the Double Barrel provides the ultimate in sustainability for your home and the environment.

Highly effective water treatment provides great water to every faucet in your house!

Coconut shell based activated carbon reduces organic chemicals and chlorine.

Anti-Scale Chamber reduces hard water problems!

High Flow Riser System ensures the lowest pressure drop!

Almandine Garnet gem mineral filtration media.

Quartz media for enhanced distribution and cleaner water.
